

ADVISORY FOR TOURISTS/ CITIZENS VISITING TOURIST PLACES

In order to ensure safety of people who are visiting rivers and other riverside adventure/ events in East Khasi Hills District, the following are the safety tips to be followed:-

Safety tips for fishing and riverside/ waterfalls adventures

- Check weather conditions before you proceed for fishing or any riverside camping or trekking.
- Always tell friends or family of your plans-where you are going and when you will be returning.
- Watch the water at all times as conditions can change dramatically in a short time.
- Don't venture the water into unsafe areas like deep water, slippery rocks, swampy areas, waterfalls, etc.
- Wear a personal flotation device and carry safety gear and a first-aid kit.
- Wear appropriate shoes with non-slip soles.
- Check the rocks as they are slippery especially during the monsoons.
- Check water before fishing.
- Never fish alone-always fish with a friend.
- Don't drink alcohol while fishing.
- Don't swim in deep water. Even if you are a good swimmer, never underestimate the power of water as sudden flood and heavy rainfall, slippery floor/ rocks can cause the foot to slip, causing accidents.
